

FRANCISCO PULICE ROJAS

Age: 25 | ID: 8-929-988

email: francisco.pulice@outlook.com

phone: +507 69519674

Academic evidence: <https://url2.cl/aAeDb>

GitHub: <https://github.com/Pulixe>

Consider having a person with Critical thinking, and a good manage of their time to ensure make my tasks. My goal is always dividing my assignments to determine the best way to solve a problem. Good Programming Logic and an enthusiast of news technologies that's help humanity.

Skills

- Linux Ubuntu, Microsoft Windows, MacOS. - Advance Skills
- Python, **Java**, **JavaScript/TS**, bash. – Advance Skills
- GitHub, Bitbucket.
- Data Base Admin: MySQL, PostgreSQL, SQL Server, Sybase. - Advance Skills
- Docker, Jira, AWS, Web Services (Apache, Nginx). – Advance Skills
- Frameworks: Django | **Angular 11** | SpringBoot Framework. – Advance Skills
- Scrum & Kanban. – Intermediate Skills

Work experience

Banco General – Backend Developer (2021-2023) (2 years)

Banco General has the largest number of clients in Panama, its infrastructure is very robust and requires constant attention in which I participated in the tasks of monitoring applications, development of internal applications of the company and administration of different servers, applying agile methodologies. Including:

- API Backend development in Java, Spring Boot Framework.
 - Create RESTfull Methods in Java to communicate Data with the internal platform. Those methods help to build a personal web dashboard that help to recognize problems in production application.
 - The code helps to automate the deployment of application in production.
- Administration, monitoring of servers and containers (On Premise / Cloud).
 - Maintain cloud servers based on Linux Operating System.
- Database Programing / (Sybase, MYSQL)
 - Development of stored procedures applying techniques that allow better use of database resources.
- Organization application maintenance.
- Jira / Bitbucket
 - We use Scrum, Daily meeting to ensure our tasks are done.

BiosSoftware – Backend Developer (2020-2021) (1 year)

Company that offers a computer systems development service for multiple platforms.

- Design and analysis of intelligent systems.
- Implementing of machine learning algorithms with Python.
- Backend Development.
 - ◻ API development with framework Flask, flaskREST.
- Database management with MYSQL to admin data.

If it is not necessary to print this sheet, please avoid it. let's think about the environment.

ISTIWEB – Web Developer (2020) (3 months)

Personal web development for photographers, Medium Business.

- Full web development with CMS Proceswire, Wordpress, frontend UI with JavaScript, HTML5, CSS.
- Contact with Clients , Google Analytics implementation.

Education 🏢

Computer and Systems Engineering (2022).

Universidad Tecnológica de Panamá. ([see here](#))

Languages: Spanish (Native), English (Conversational, B1).

Personal

On my Github you can find personal projects that I have developed over time to continue developing my experience as a programmer. I like to research and develop code for hardware platforms like Arduino and Raspberry Pi, which implement technology like Python and C++.
